President's Message by Earl Kaplan

Well, we are finishing up the first quarter of 2017 in relatively good shape. I have been reviewing the multitude of presentations available to us from APCUG and there are a few that combine an interesting subject with a presenter who knows how to sustain interest in what he (or she) is saying.

Your board is wrestling with a subject that I thought our general age range excuses us from; the balancing of income and outgo. Any ideas about fund raising would be appreciated, but no cookie sales please.

Photo Group Report by *Ralph Sutter*

Notes from the Photography Group meeting of 02/12/17

TOPIC: Layers Revisited.

The meeting opened with Ralph Sutter playing a video review of the Moment SmartPhone add-on lenses for the iPhone.

See https://www.youtube.com/watch?v=Ch13LhgcUsw&feature=em-subsub_digest

Next, Sutter showed how he used layers for simple manipulation of images. His video screen captures document the steps. See

[Cavern Point](#) and [Michela](#)

This generated an extended discussion of Photoshop Element's Quick Selection Brush and the proper positioning of layers.

Alan Raul then played a lengthy How to Gurus video tutorial that carefully demonstrated using layer masks and other tools to merge two photos into a single image. View it at https://www.youtube.com/watch?v=Dtu_gPY_j7k

The group often paused the video to ask each other "what if" questions about the process. Raul finally showed his own work in which he pasted a picture of himself onto another water image and invited the rest of the group to clean it up.

We took this as a homework assignment as viewing the several videos and battling lost Internet connectivity didn't leave enough time to tackle Alan's challenge.

SIDE NOTE: For the record, the new TV used for today's session is a Samsung 55" 4K SUHD Curved LED LCD TV.

See specs at <http://www.samsung.com/us/televisions-home-theater/tvs/4k-suhd-tvs/55-class-ks850d-8-series-curved-4k-suhd-tv-2016-model-un55ks850dfxza/>

NEXT MEETING Sunday, March 19th 2017 @ 2:00 pm ***Please note. This is one week later than usual.**

LOCATION:

Home of Connie and Ralph Sutter
498 Hansen Hill Road, Arroyo Grande

TOPIC: Texture

The topic for the March 19th, 2017 meeting will be Textures. The challenge here is to infuse your images with texture. Taking a two-dimensional print and giving it the feel of a 3D experience by introducing texture is a sure fire way of distinguishing your work from those around you.

It's all about the angle of your lighting and working with the shadows to take full advantage of the existing textures.

Suggested setting: 70-300mm f/5.6 at 1/3 seconds ISO 100NOTE: This assignment was suggested by Lightbox a 52 card deck with a photo challenge for every week of the year. Learn more at <http://lightbox-photography-cards.myshopify.com>

SLO Bytes Bulletin Board

Everyone can read the SLO Bytes Bulletin Board at <http://slobytes.org/smf/index.php?board=1.0> but only subscribers can post comments or respond to the posts of others. Despite the usual connotation of **subscribe**, it costs nothing to join the bulletin board. It is free to all current SLO Bytes members. However, to guard against cyber-mischief by spammers and other ne'er-do-wells, I have disabled self-registration. If you want to be added to the bulletin board, please send your request to me at ralph@rsutter.com.

If you are currently registered with the SLO Bytes Bulletin Board and wish to change your password, you will find a video screen capture of how to do so at <http://www.slobytes.org/documents/change-bb-password.mp4>

Club Information and Meeting Times

SLO Bytes, a PC Users Group dedicated to educate its members in the use of personal computers, digital devices and software, meets on the first Sunday of each month at the **Independent Order of Odd Fellows (IOOF) Hall** at 520 Dana Street, San Luis Obispo. All meetings are open to the public at no cost. A general interest and Q&A session occurs from 12:45 PM to 2:00 PM and guest speaker presentations begin at 2:30 PM. Contact **John Waller** (johnwaller@sbcglobal.net) or visit slobytes.org for additional information about SLO Bytes and the scheduled presentation.

All ideas for speakers or presentation subjects are welcome.

HardCopy is a monthly publication of **SLO Bytes PC Users' Group** located in San Luis Obispo, California. Information in this newsletter is derived from both our own membership and other PC user group newsletters. The purpose of this publication is to inform our members of meetings and provide information related to the use of PCs and various operating systems.

Membership dues are \$25 per year. Membership entitles you to our monthly newsletter via e-mail, technical assistance, eligibility for raffle gifts when drawings are held, a voice in the affairs of the club, and comradeship.
